

# A Day Out

~ By Sophie Yim ~

On the 6<sup>th</sup> of March, William, Leo and I went to HKU with Ms Suen. We were invited to give presentation in a workshop about KBIP. We did well.

After the presentation, we attended a forum. It was about e-learning. In the forum, people discussed about the good and bad things in using computers for learning. I think this forum is interesting and their debate is important for us.
